

Scooby

HOAX

Tacos getting cold
So we take it to the crib
Television magic
Couches where we sit
Bollywood for hours
Why they always extra
And when you're on my mind, girl
I think that I should text ya
We should go to Thailand
Live like royalty
Or start a revolution
Give away for free
And I never fall asleep
But I fall right into you
You're like Sunday morning
Wake ups
You're like Saturday
Cartoons
But it's only for the hour
Cause it never ever fails
You're the greatest flower
Cause you do it for yourself
Baby, you're a power
That I'll never understand
Chasing all your mysteries
Like a Scooby Dooby van If you're giving love
Tell me what you choose
I've been searching lifetimes
Picking up your clues
And I never fall asleep
But I fall right into you
You're like Sunday morning
Wake ups
You're like Saturday
Cartoons
But it's only for the hour
Cause it never ever fails
You're the greatest flower
Cause you do it for yourself
Baby, you're a power
That I'll never understand
Chasing all your mysteries

Like a Scooby Dooby van Wait
I know we met up really
Late
I can hear tires screaming
In rain
I can't see nothing clearly
When you're
On my mind But it's only for the hour
Cause it never ever fails
You're the greatest flower
Cause you do it for yourself
Baby, you're a power
That I'll never understand
Chasing all your mysteries
Like a Scooby Dooby van
