

# Fly Like Me

## Chingy & Amerie

Now you done been around the world and you've seen a lot of girls  
But, you ain't neva seen a girl look so fly like  
You done rolled through some hoods, there's some girls that look good  
But, you ain't never seen a girl look so fly like And you did partied, did some hugs  
And some girls show you love  
But, you ain't never seen a girl look so fly like me  
Baby, but chu never had a girl look so fly like me Now, I'd done been around the world, thought  
I'd seen it all  
Her color, her shape, what I need and all  
Twitch like seasons, when the summers, spring and fall  
In back seat of my jeep, I'm chrome veet and all On the hunt for these girls was like my day to  
day  
Get 'em alone, I jump 'em and den fade away  
I give it good, so some of them won't stay away  
They try to lock me up, but I break away  
And to the day I lay my eyes on the princess  
And you can tell she was a dime from a distance  
It took a minute to come to my senses  
She's the perfect match as God is my witness Now, for the first time I've opened my eyes  
Put my glass in the air, now I toasting the sky  
Feels like I'm in heaven, and I'm hoping to fly  
Baby girl, come along for the ride, yu know why, 'cuz I Now you done been around the world  
and you've seen a lot of girls  
But, you ain't neva seen a girl look so fly like  
You done rolled through some hoods, there's some girls that look good  
But, you ain't never seen a girl look so fly like And you did partied, did some hugs  
And some girls show you love  
But, you ain't never seen a girl look so fly like me  
Baby, but chu never had a girl look so fly like me  
Now, I ain't neva had a girl that was so fly  
Other guys come around, you acting so shy  
You got 'em shaking in their boots, and I know why  
'Cuz they cant handle the truth then that's no lie As for me, I'm the one that you been dreaming  
on  
And wen you saw me I'm the one that you were scheming on  
And when you need it, I'm the shoulder that you would be leaning on  
Take off that Gucci and keep them Vickie sneakers on Let's take a flight 'cuz the world is our  
playground  
And buy houses from the Lou, to the A-Town  
It's silk sheets, so it's soft when you lay down  
Ching-a-ling, yeah, I get down and stay down There's no one better, baby girl, you's a blessing  
You got me headed in a positive direction

You got my vote, when you re-up for election  
'Cuz all I wanna do is give you love and affection  
Now you done been around the world and  
you've seen a lot of girls  
But, you ain't neva seen a girl look so fly like  
You done rolled through some hoods, there's some girls that look good  
But, you ain't never seen a girl look so fly like  
And you did partied, did some hugs  
And some girls show you love  
But, you ain't never seen a girl look so fly like me  
Baby, but chu never had a girl look so fly like me  
Why you wasting your time, look heaven in  
the streets  
When you can just come to me?  
You know that I got what you need, I got what you want  
Boy, won't you come and see?  
What if you never seen, a girl like me ever, like me before?  
Won't you come inside, let me keep it dry 'cuz I'm so fly  
Now you done been around the world  
and you've seen a lot of girls  
But, you ain't neva seen a girl look so fly like  
You done rolled through some hoods, there's some girls that look good  
But, you ain't never seen a girl look so fly like  
And you did partied, did some hugs  
And some girls show you love  
But, you ain't never seen a girl look so fly like me  
Baby, but chu never had a girl look so fly like me  
Now you done been around the world and  
you've seen a lot of girls  
But, you ain't neva seen a girl look so fly like  
You done rolled through some hoods, there's some girls that look good  
But, you ain't never seen a girl look so fly like  
And you did partied, did some hugs  
And some girls show you love  
But, you ain't never seen a girl look so fly like me  
Baby, but chu never had a girl look so fly like me
