

# Saturn

SZA

If there's another universe  
Please make some noise (noise)  
Give me a sign (sign)  
This can't be life  
If there's a point to losing love  
Repeating pain (why?)  
It's all the same  
I hate this place  
Stuck in this paradigm  
Don't believe in paradise  
This must be what Hell is like  
There's got to be more, got to be more  
Sick of this head of mine  
Intrusive thoughts, they paralyze  
Nirvana's not as advertised  
There's got to be more, been here before  
Ooh (Ooh, ooh)  
Life's better on Saturn  
Got to break this pattern  
Of floating away  
Ooh (Ooh, ooh)  
Find something worth saving  
It's all for the taking  
I always say  
I'll be better on Saturn  
None of this matters  
Dreaming of Saturn, oh  
If karma's really real  
How am I still here?  
Just seems so unfair  
I could be wrong though  
If there's a point to being good  
Then where's my reward?  
The good die young and poor  
I gave it all I could  
Stuck in this terradome  
All I see is terrible  
Making us hysterical  
There's got to be more, got to be more  
Sick of this head of mine  
Intrusive thoughts, they paralyze  
Nirvana's not as advertised  
There's got to be more, been here before

Ooh (ooh, ooh)  
Life's better on Saturn  
Got to break this pattern  
Of floating away  
Ooh (ooh, ooh)  
Find something worth saving  
It's all for the taking  
I always say  
I'll be better on Saturn  
None of this matters  
Dreaming of Saturn, oh
