

Gravitation (feat. Isaac Delusion)

Petit Biscuit & Møme

I'm picturing your face
With millions of colors
Just to feel the empty space
Standing in this will
Our mutual planets I'm moving back to you
Gravitation field I'm lifting at night
In your gravitation field
Standing inbetween
Our mutual planets
I'm picturing your dreams
With millions of particles
To feel the curve in space and time I'm moving back to you
Gravitation field
I'm lifting at night
In your gravitation field
Standing inbetween
Standing inbetween
