

# Be Like You (feat. Broods)

## Whethan

Heard what you said, in front of my head  
Making me sober  
Taking it in, you can't pretend you didn't notice  
Pick it apart, back to the start  
I didn't know ya  
Give it a chance, watching your chest  
How did it feel ya?

Even though you're it right now  
I don't want your crown  
Even if I fall apart

You, you  
I don't wanna be like you, you  
I don't wanna do what you do  
You, you  
I don't wanna be like you, you  
I don't wanna do what you do

Heard what you said, 'round in my head  
Making me sober  
Know how it ends  
You and your friends won't even notice  
You read your part right from the start  
Nobody knew you  
Give it a chance  
Know I can

You, you  
I don't wanna be like you, you  
I don't wanna do what you do  
You, you  
I don't wanna be like you, you  
I don't wanna do what you do  
You, you  
I don't wanna be like you, you  
I don't wanna do what you do  
You, you  
I don't wanna be like you, you  
I don't wanna do what you do
