# Hit It

## American Authors

Some say if you don't go then you wont know how to let go when you gotta let it swerve
Some say if you don't try then you won't know how to get by now you said it wouldn't hurt - oh
no!
If I knew then what I should have known now
Up and down jump off the deep end work this out I should have left with you, with you
No way out I met your best friend she went down and I should have made my move with you
I shoulda I woulda I coulda but I didn't
Hit it!
Some say if you break down then you touch down then you dropped out so you got a lot to learn
But I say pick it back up throw it on now make a stack up coz tonight we're gonna burn it down
If I knew then what I should've known all along
Up and down jump off the deep end work this out I should have left with you, with you
No way out I met your best friend she went down and I should have made my move with you
Messed up now pissed off the in crowd break this down and my eyes are set on you, on you
We know now I'm not your best friend broke all vows I'll make it up to you, to you
I shoulda I woulda I coulda but I didn't
Hit it!
I'm feeling lucky lay all my cards down nothing can stop me tonight we go all out
I'm feeling lucky I'll bet my hometown nothing can stop us now
I say if you don't know then you go slow or you don't go don't be a now show
Just let go let's get stoned from the top down to the down low down low lets go
I say if you don't know then you go slow or you don't go don't be a now show
Just let go let's get stoned from the top down to the down low down low lets go
You
You
You
You
Up and down jump off the deep end work this out I should have left with you, with you
No way out I met your best friend she went down and I should have made my move with you
Messed up now pissed off the in crowd break this down and my eyes are set on you, on you
We know now I'm not your best friend broke all vows I'll make it up to you, to you
I shoulda I woulda I coulda but I didn't
Hit it!
