

Visionz

Prince Po & Oh No

[Verse 1:]It's like in your sleep you be seeing things man, youOnce againBugged out
dreamsWonder if you got a message behind itI can't sleep i'm shakingEyes dilated, hearing
voices, i'm naked and dehydratedJaded, talking to the faces in the wallHallucinating i'm hearing
strange noises in the hallFunny cause nobody is home but me and the damn dogNot an eagle a
nickel played 90 stitch to my palmsAs I creep with regret still phizzing, wheezingAnything
move twitch or quiver i'm squeezingPlaying this whis when the kitchen is freezingPussy ripped
my pip she's limping and bleedingSomething fierce got a dead ass in the yardBlood trailing
down the stairs going to the lawnFar from the myths you can hear the wolves howlingMuxed
children by the blue lagoon with their pouch growlingSoul crying for a better plaque in this
episodeThe sky screaming stop po don't let it go[Chorus:]Visions, visionsHaving these visions,
visionsVisions, visions[x2][Verse 2:]I got goose bumps i'm nervous and sweatingTrying not to
look in the eyes of armageddonBackstabbers and bitch niggas is causing chaosBesides fidelities
and bullshit is sent to betray usThe airwaves is poisoned the streets is cursedWater
contaminated gunmen busting heat in churchOn the evil world leaders that's quite
misleadingGod please give me the strength to fight these demonsBusting like fuck bullets going
nowhereScreams from the brush but I ain't tryna go thereRash and cannabis on his heartFor
paper amongst master savages raping mother natureBleeding bats and disease monkeys helve
overRabie rats and snake three bonnie will do you colderBut with trained specialist ghetto navy
sealsThen you step through affalus with the power to healGully ghost rider slipping by killer
skillsSearch for survivors transport them to the hillsCaptives and bondages spin them in the
millsEliminate infiltrators corner them in the fieldsBlood sweat and tears rainy nights and
chillsMy shit deafens some get right with the pillsIs a dream of is it for realI'm asking is it a
dream or is it for real[Chorus:]Visions, visionsHaving these visions, visionsYou know them
visions, visionsBugged out visions, visionsYeah[x2][Outro:]You know what it isBugged out
type of shitYou know what I mean
