

# Fanatics (feat. Lecrae)

116

[Hook]

I'm a F-A-N-A-T-I-C

Fanatic

I rep Christ till I D-I-E

Fanatic

I'm not extreme, I'm redeemed with faith

To serve a God whose extremely great

I'm a Fanatic

[Verse One]

The world's trying to tidy up, exfoliate they skin

But only Christ can come and ex-foliate they sin

And they fate look grim, if they don't take Him

As the High Priest He is to mediate they sin

The world got too many gods, man we choose the One

From Hebrews, He rules, He bruised His Son

He moves the sun

So if we praying and our schools call us fools

Cause our God's too true to shun

Channels two and one, man it looks insane  
TV make a lot Christians seem dramatically strange  
Though we may be looked upon as, one and the same  
We will not turn in shame, we proclaim the name  
Christ Jesus, believe us, you ain't gotta receive us  
But we gon follow our God, wherever the Bible lead us  
And you can call us dramatic, fanatic, emphatic  
But hey while you at it, take a look at our mathematics

[Verse Two]

What can I do to make it simple, make it plain  
Christ came, emptied Himself and let our sin hang Him  
You couldn't blame Him for any sin  
While they singing many men  
The crucifixion was pretty grim  
But when we state the fact that God resurrects  
We get funny looks from a world that doesn't get  
That we are not David Koresh or Krishna  
Or the people on TV who glorifying the bishop  
From Edwards to Piper, MacArthur to Spurgeon  
From Dallas to France, from Cali to Berlin  
There's Christians all over who getting the word in  
We ain't crazy we just understand the truth and we burdened  
The world sees us Evangelical Christians  
As narrow-minded fanatics with a mythical mission

Labeled extremists for sharing our faith  
But that's cool, we can carry the weight, of persecution  
Cause earth is losing  
And if we yelling the truth  
We honored to be the people that our God's using  
So keep it moving  
Cause if we yelling the truth  
We honored to be the people that our God's using

[Verse Three]

They thought Jesus was out of His mind  
They laughed and mocked Him  
Called him a cult leader and they tried to stop Him  
Pharisees said Christ got His power from Satan  
Hating on the very One that came to save em  
Even after He rose man the world ain't changed  
They still rejecting the name, still look at us strange  
Still tell us without shame that our faith's insane  
And, it don't take all that to be a Christian maybe  
And it's hard when you tryin to reach your family and stuff  
They say, man you too spiritual, you doing too much  
So we show em the love of Christ and live in the light  
So they can glorify our God when they look at our life  
And we win, for sharing the truth and hearts get changed  
We win, if we're rejected because of His name

We win, if seeds get planted and watered to grow

But even if we lost we still be fanatical though
