

The Story of the Paper Boy

Powfu

Da, da-da-da

Da, da, da, da-da-da, da

Da, da, na-na-na

I, I

I feel like I am flying (feel like I am flying)

I don't wanna calm down now

Ey, and I don't know what's up, right?

So what is up?

I got newspapers up in my bicycle

It's getting cold out, feeling like an icicle

It's a new job on my first day

Didn't wanna be a paper boy, but gotta get payed (get payed)

Doing what I have to pedal through the wind

Can't feel my cheeks and the air is feeling thin

Walking out close to these different colored doors

Leave them on the mat or throw them on the porch

Yeah, I hate this shit, but I'll stay with it

I put a smile on even though I'm faking it

I'm like a friendly neighborhood Spiderman

Except I'm in it for the money, not saving kids

Some say I'm weird, yes I mix and match

They all skipping me, like I'm a fitness ad

I don't talk a lot, I say this and that

But my bars are clean, yeah they spick and span

I feel like I am flying (feel like I am flying)

I don't wanna calm down now (don't wanna calm down)

I don't wanna calm down

I don't wanna calm down (calm down)

Yeah, ey, hop up on my bike again

Going like 22 except minus 10

Watchin' the clouds as I'm humming at him

Keep my mouth shut, so the bugs don't get in

Yeah, I'm kinda starting to like it

It feels good when my work pays off (yeah)

I'm a nice kid, everyday grinding (grinding)

But sunday I'ma take off (oh)

Oh shat, I just hit cat

Tryna run away but my tire's flat

If they saw me, they might deliver a slap

And I don't want them to see him lying down flat

So I put the cat in my backpack

Covering my eyes with my dad hat

Tryna get away, feeling like a villain

Hoping that the cat didn't had any kittens

Cause if it did that would be kinda sad

Well, maybe I'm all wrong, maybe this is the dad

So much going on I can't tell what's frecking happening (yeah)

Heartbeat racing I'ma keep on paddling

Taking the steady

My breath feeling heavy

This how it goes when you travel the road

You never been down before (ey)

I feel like I am flying

I don't wanna calm down now

I feel like I am flying

I don't wanna calm down now

I don't wanna calm down

Oh-oh-oh, oh-oh-oh
