

Hold Your Kite

GoldFish & Sorana

You know where I'm going
Your heart becomes precise
You tell me don't go away but it's my time
I know you'll be praying for one more night
So I can stay near by your side
You know stop holding on
So let me go when I close my eyes
I know you've given me some years of your life
But you're still young
Don't fall behind
I know we'll meet again when it's your time
Remember do
Hold your kite
Stormy weather do you feel high
And make it better you got one life
Got one life
I'll
I'll be watching
I'll be watching you
I'll be watching
I'll be watching you
Your eyes are tender
Just like mine
Baby you remember
As the years go bye
And if you miss me
Deep in mind
I will always be there
When the night is high
You know stop holding on
So let me go when I close my eyes
I know you've given me some years of your life
But you're still young
Don't fall behind
I know we'll meet again when it's your time Remember do
Hold your kite
Stormy weather do you feel high
And make it better you got one life
Got one life
I'll
I'll be watching
I'll be watching you Do

Hold your kite
Stormy weather do you feel high
And make it better you got one life
Got one life
I'll
I'll be watching
I'll be watching you
