

# Flashlight

## Ellie Goulding & DJ Fresh

Do you remember boy when you were so cruel  
And you played the thief and I played the fool  
Gonna I'll make you move I'll make you move I'll make you move  
    Been so long crying over you  
Now I'm coming your way gonna make you move Gonna  
    Make you move I'll make you move I'll make you move  
    Chasing faces in the sand Now your dagger is in my hand  
I'll make you move I'll make you move I'll make you move  
    I'll make you run faster faster faster flashlight flashlight  
    Get out of my way get out of my way cause I can't lose  
    I'll make you run faster faster faster flashlight flashlight  
    Get out of my way get out of my way I'm coming through  
I'll make you run fa- I'll make you run fa- I'll make you run fa- I'll make you run fa-  
Coming down on you with the flashing lights There's no way to run baby you can't hide  
Gonna Make you move I'll make you move I'll make you move  
    It's too late now the tables turn  
It's not going back now you'll never learn unless I'll make you move I'll make you move I'll  
    make you move  
    And you think I'm still brokenhearted  
But you never won the war you started You better open your eyes  
    Faster faster faster flashlight flashlight  
    Get out of my way get out of my way cause I can't lose  
    I'll make you run faster faster faster flashlight flashlight  
    Get out of my way get out of my way  
    I'm coming through  
And you think I'm still brokenhearted But you never won the war you started  
    You better open your eyes  
    I'll make you run I'll make you run  
    I'll make you run I'll make you run  
    I'll make you run I'll make you run  
    Faster faster faster flashlight flashlight  
    Get out of my way get out of my way cause I can't lose  
    I'll make you run faster faster faster flashlight flashlight  
Get out of my way get out of my way I'm coming through  
    I'll make you run faster faster faster flashlight flashlight  
    Get out of my way get out of my way cause I can't lose  
    I'll make you run faster faster faster flashlight flashlight  
Get out of my way get out of my way I'm coming through  
Get out of my way get out of my way I'm coming through
