

Us v Them

LCD Soundsystem

The time has come, the time has come, the time has come
today

The time has come, the time has come, the time has come
today

The time has come, the time has come, the time has come
today

The time has come, the time has come, the time has come
today

And so all the good people wanna rescue

All the small people wanna talk to you

All the clever people wanna tell you

All the little people wanna dance its true

But the time has come, the time has come, the time has
come, the time has come

The time has come, the time has come, the time has
come, the time has come

The time has come, the time has come, the time has come

today

The time has come, the time has come, the time has come

today

And so all the good people wanna rescue

All the small people wanna talk to you

All the clever people wanna tell you

All the little people wanna dance its true

Cloud, block out the sun

Over me, over me

And spoil, spoil all the fun

Won't you please

Cloud, block out the sun

Over me, over me

And spoil, spoil all the fun

Wont you please

If you please, please anyone

Talk to me talk to me

All you boys, lonely and drunk

On your knees

Us and Them

Over and over again

Us and Them

Over and over again

Us and Them

Over and over again

Us and Them

Over and over and over again

Because all the good people wanna rescue

All the small people wanna talk to you

All the clever people wanna tell you

All the little people wanna dance its true

So its Us v. Them

Over and over again

Us v. Them

Over and over again

Us v. Them

Over and over again

Us v. Them

Over and over and over and over

Us v. Them

Over and over again

Us v. Them

Over and over and over and over

All the good people wanna rescue

All the small people wanna talk to you

All the clever people wanna tell you

All the little people wanna dance its true

Its just Us and Them

Over and over again

Us v. Them

Over and over again

Us v. Them

Over and over again

Us v. Them

Over and over again

Us and Them

Over and over again
