

Higher Me

Jean Deaux

[Chorus]

Stuck in amazement, I got high esteem

I sent a message, made him fly to me

Workin' him so much, he should hire me

Yeah, he should hire me, yeah

Tell me it's mine, won't you lie to me

Look down in his soul, got him beggin', pleading

If I go missing, he gon' come here

(Maybe that's the God in me)

[Verse]

You know I don't play that

Speak up when you say my name

Give me all your weight

You don't gotta say that

Here you go with all your games

Just to get your way

Put you in that (Alright, one more time)

Just 'cause we go way back when

It seemed like a phase

Can you lean your head back?

Won't you talk your shit again?

While I take my place?

[Refrain]

Finger the dough and my bread long
Sneakin' and geekin', let's go to the mo'
Hanging by threads, but his genes strong
Monkey'd around, he ain't hangin' no more
You ain't been freaked in a long time
This feeling the world, and the world mine

[Chorus]

Stuck in amazement, I got high esteem
I sent a message, made him fly to me
Workin' him so much, he should hire me
Yeah, he should hire me, yeah
Tell me it's mine, won't you lie to me
Down in his soul, got him beggin', pleadin'
If I go missing, he gon' come here
(Maybe that's the God in me)

[Refrain]

Finger the dough and my bread long
Sneakin' and geekin', let's go to the mo'
Hanging by threads, but his genes strong
Monkey'd around, he ain't hangin' no more

You ain't been freaked in a long time
This feeling the world, and the world mine
Sneakin' and..

Sneakin' and geekin', let's go to the mo'
Hanging by threads, but his genes strong
Monkey'd around, he ain't hangin' no more

You ain't been freaked in a long time
This feeling the world, and the world mine
This feeling the world, and the world mine
This feeling the world, and the world mine
