

Miss Me More

3LAU

So many nights
Sitting in a Sonic drive-through
Tito's and a [?]
Used to know what I liked
And I used to know what you liked
I rescue you from the party
Saving you with my body
Three weeks since you said goodbye, mmhI wanna see you
You say you're cool but I don't think I believe you
Sometimes
I wish we were still together
But whatever, yeah
I'm gonna miss you
I'm gonna miss you, yeah
I kinda hate the way you left me wanting more
I'm gonna miss you
I, I'm gonna miss you, oh-oh
The way that you made me love you madly, that's for sureBut you're gonna miss me more
You're gonna miss me more
You're gonna miss me more
You're gonna miss me moreI see that you're seeing
Everything that I'm posting
You don't like 'em but I know you
I'm going out tonight, and I'm fine
If I see you
For a second I might think I still need you
Sometimes
I wish we were still together
But whatever, ohI'm gonna miss you
I'm gonna miss you, yeah
I kinda hate the way you left me wanting more
I'm gonna miss you
I, I'm gonna miss you, oh-oh
The way that you made me love you madly, that's for sureBut you're gonna miss me more
You're gonna miss me more
You're gonna miss me more
You're gonna miss me moreI'm gonna miss you
I, I'm gonna miss you, oh-oh
The way that you made me love you madly, that's for sureI still remember those nights
(I'm gonna miss you)
Staring up at the sky
(But you're gonna miss me more)

Said you'd always be mine, oh
(You're gonna miss me more)
3 weeks and you said goodbye, goodbye When I see you
You say you're cool, I don't think I believe you
Sometimes
I wish we were still together
But whatever, mmh I'm gonna miss you
I'm gonna miss you, yeah
I kinda hate the way you left me wanting more
I'm gonna miss you
I, I'm gonna miss you, oh-oh
The way that you made me love you madly, that's for sure (But you're gonna miss me more)
I still remember those nights
I still remember those drives
I'm gonna miss you
I, I'm gonna miss you, oh-oh
The way that you made me love you madly, that's for sure But you're gonna miss me more
