

# Georgie

## Pussycat

Georgie, your love reminds me of a song  
When its new you put it on and its refrain you remember  
Georgie but when a songs been often played  
Another song then has been maded, makes you forget what you like the other day  
Georgie there was a time you played I Love  
Remember another record you can play and turn it off  
Georgie like many songs you will return  
Every minute it begun  
And when it come you can see me standing there  
Georgie there was a time you played I Love

Remember another record you can play and turn it off  
Georgie like many songs you will return  
Every minute it begun  
And when it come you can see me standing there  
Georgie I'm telling you I'll be stand there to hold your hand to kiss your lips  
To say please love me
