

# Love Is Alive (feat. Elohim)

## Louis The Child

There's no one else here around me  
Sinking my feet in the sand  
I'll be right here on this island  
I hope that you understand  
Ooh yeah  
I'm feeling it, I'm feeling it  
Ooh yeah  
Come to me quick, come to me quick  
I just wanna go where love is alive, love is alive, love is alive  
I just wanna go where love is alive, love is alive, love is alive  
In the night where you don't have to prove it  
On the flight there is no way to lose it  
I just wanna go where love is alive  
So I'm gonna do that  
Only the chaos surrenders  
Changing the currents inside  
The water can keep getting deeper  
Cause I'll be right here staying dry  
Ooh yeah  
I'm feeling it, I'm feeling it  
Ooh yeah  
Come to me quick, come to me quick  
I just wanna go where love is alive, love is alive, love is alive  
I just wanna go where love is alive, love is alive, love is alive  
In the night where you don't have to prove it  
On the flight there is no way to lose it  
I just wanna go where love is alive  
So I'm gonna do that  
I just wanna go where love is alive, love is alive, love is alive  
I just wanna go where love is alive, love is alive, love is alive  
In the night where you don't have to prove it  
On the flight there is no way to lose it  
I just wanna go where love is alive  
I just wanna go where love is alive  
I just wanna go where love is alive  
So I'm gonna do that  
Ooh yeah  
I'm feeling it, I'm feeling it  
Ooh yeah  
Come to me quick, come to me quick  
Ooh yeah  
Ooh yeah

I just wanna go where love is alive, love is alive, love is alive  
I just wanna go where love is alive, love is alive, love is alive  
In the night where you don't have to prove it  
On the flight there is no way to lose it  
I just wanna go where love is alive  
So I'm gonna do that
