

# Real Big (feat. Marsha Ambrosius)

## Nipsey Hussle

Real big, real big, I knew one day I would do it real big  
Real shit, real shit, I know all my real niggas feel this  
Night time, locs on, can't even see the stars, but we still wish  
Real shit, real shit, who would ever thought that we would build this  
Tryna walk to school, get  
your jaw socked  
Tryna pump your gas, get your car shot  
Large profit margin on the long shots  
'Cause young niggas rarely make it off of our block  
Night time, locs on  
Fuckin' young bitches while they folks home  
High school, didn't go  
Couldn't understand my plan, now you niggas know  
Self made, well paid  
I'm from where they tell you never touch the shell case  
I'm from where they teach you never trust a pale face  
Let's talk bangin', I can tell you 'bout a field race  
Real shit, real shit, I know all my real niggas feel this  
Night time, locs on  
Fuckin' young bitches while they folks home  
Real big, real big, I knew one day I would do it real big  
Real shit, real shit, I know all my real niggas feel this  
Night time, locs on, can't even see the stars, but we still wish  
Real shit, real shit, who would ever thought that we would build this  
Sold out shows that's a  
door split  
Niggas ain't show up, that's a forfeit  
Left my record label, just got more rich  
I switched it up, that's me singin' on the chorus  
But still I spit bars so gutter  
Drive cars, no stutter, top floor, no clutter  
Hardwood floors though  
White wall, that's where my awards go  
Runnin' from the law, till they foreclose  
Sit wit myself when them doors close  
Sometimes I got a question, only Lord knows  
When I be going out in Copenhagen, spendin' euros  
Night time, locs on  
Do it big nigga till my Locs home  
Real shit, real shit, I know all my real niggas feel this  
Real big, real big, I knew one day I would do it real big  
Real shit, real shit, I know all my real niggas feel this  
Night time, locs on, can't even see the stars, but we still wish  
Real shit, real shit, who would ever thought that we would build this  
If I could stay in this

moment, I would, forever  
If I could live in this moment, said I would, forever  
Real shit, real shit  
Yeah, yeah  
If I could give you the stars baby, I would  
Wanna last and share in this moment baby  
I'd give you the stars baby, I wouldReal big, real big, I knew one day I would do it real big  
Real shit, real shit, I know all my real niggas feel this  
Night time, locs on, can't even see the stars, but we still wish  
Real shit, real shit, who would ever thought that we would build this
