

Rally the Troops

Teminite & PsoGnar

[Verse]

Behold the exile has rolled ashore
Rise to meet with opened arms
The dark is lighted by a shooting star
At least we wish it was
Out of the way, take cover
Alone now we run through
The fire, won't be the last to lose
Though we will rebuild again
The victim we refuse
Take cover
To talk us down is no use
Rally the troops

Rally the troops

[Drop]

Rally the troops
Take cover!
(Check your fire!)x2
