

Bury Me Alive

Oliver Tree

I watch out
I'm shut down
It always falls apart
I watch out
I'm shut down
It always falls apart Carry me away in a coffin
That's the day that I'm stopping
One thing is enough and I'm dropping it all if I ever tell
One day when I sneak in the gates of hell
Crushing up, I see them rushing up
Still went around and I'm f----- up
Life supports, is it decisive fool?
I'm decisive, let me get my style and devices
My vices, kick it on a back and too
Rolling dices, let me get a six and six and another six
That's where the Devil lives
Calling up Lucy just to get a fix
I watch out
I'm shut down
It always falls apart
It's not the first time
I watch out
I'm shut down
It always falls apart Bury me alive
Some days I'm dead inside
It's fine, everything will end in time
I tried, speaking every thought on my mind
Till the day that I die, I don't swallow my pride
I don't like this, laying lifeless
One last final breath of air, before I bite it
I used to have it all, filling up my vault
But it won't mean s--- on the day of my funeral
I said it won't mean s--- on the day of my funeral
Eight lives, only got one left
Looks like I got a reason then
At last, I finally made it past
A hundred white lies, now I wanna hear facts
I'm literal, miss me by a four second interval
Catch me by surprise screaming situation critical
Situation critical Death ray
Golden age
We all want

Better days
Death ray
Golden age
We all want
Better days I watch out
I'm shut down
It always falls apart
It's not the first time
I watch out
I'm shot down
It always falls apart
It's not the first time
