

Let Me Touch Your Fire

ARIZONA

I've got a cold heart and cold hands
I'll make you wanna be where I am
If you only knew my plans
Oh if you only knew who I am

Normally I break your heart
I love every minute, tear you apart
Late at night I lie awake
Just thinking about your pretty face

I've got a cold heart and cold hands
I'll make you wanna be where I am
If you only knew my plans
Oh if you only knew who I am

Normally I break your heart
I love every minute, tear you apart
Late at night I lie awake
Just thinking about your pretty face

I'll never leave you on the wire
So let me touch your fire
I'm cold, sick and I'm tired
So baby let me touch your fire

I'll never leave you on the wire
So baby let me touch your fire
I'm cold, sick and I'm tired
So let me touch your fire
