

Butterflies (The Voice Performance)

Micah Iverson

[Verse 1]

Lay down with the memories stuck in my head
Now I pass the days, just trying to forget
What can I give when there's nothing left?
What can I say when it's all been said? [Pre-Chorus]
If I could hold you closer, never let you go
I wish I never known ya, so then I'd be in love
I think I got a problem 'cause I'm falling in love for fun
I've opened up my heart one too many times
I'm done

[Chorus]

Can't trust the butterflies, they lead me on
Promise it's not my fault
Don't wanna be in love
Can't trust the butterflies, they break my heart
Swear that it's not my fault
They make me fall in love
Can't trust the butterflies, yeah [Verse 2]
I wish I was an architect
So I could build a fort and just disconnect
Yeah yeah yeah
But even then, I need a rocket ship
The only way to forget ya is in another demension

[Pre-Chorus]

If I could hold you closer, never let you go
I wish I never known ya, so then I'd be in love
I think I got a problem 'cause I'm falling in love for fun
I've opened up my heart one too many times
I'm done

[Chorus]

Can't trust the butterflies, they lead me on
Promise it's not my fault
Don't wanna be in love
Can't trust the butterflies, they break my heart
Swear that it's not my fault
They make me fall in love
Can't trust the butterflies, yeah [Bridge]

Whoa oh, yeah yeah

Whoa oh, yeah yeah

Ooh, whoa whoa

Yeah yeah yeah

Yeah yeah yeah

Ooh[Chorus]
Can't trust the butterflies, they lead me on
Promise it's not my fault
Don't wanna be in love
Can't trust the butterflies, they break my heart
Swear that it's not my fault
They make me fall in love
Can't trust the butterflies, yeah
