

# Burn Bridges

Dom

Friends that you trust they probably know way too much  
Just love em and leave em  
It's the friends that will have your back that might stab  
Save yourself from the evil  
Before things get lethal  
When you're young don't fall asleep in the sun  
Try not to get caught up in the fun  
Be a snake in the grass don't forget to laugh

Burn bridges  
Make yourself an island  
Just forgive em  
And forget em  
Let's all be forgetters

People you love will never love you enough  
Hormones makes em feeble  
It don't matter how tall love grows it plateaus  
Save yourself from the evil  
Go where the party goes  
When you're young don't fall asleep in the sun  
Try not to get caught up in the fun  
Be a snake in the grass don't forget to laugh

Burn bridges  
Make yourself an island  
Just forgive em  
And forget em  
Let's all be forgetters
