

# Heading Home

Gryffin, Josef Salvat & Justin Caruso

I won't stop, I won't look down  
I tried all my tricks, I broke all-new ground  
And in this final hour, look what I found  
I got this whole damn thing the wrong way around  
Cause people gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night, no  
People gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night  
Maybe we're still lost  
Maybe we'll never learn  
But as the dust settles down and I'm glad you're here  
I feel I'm finally headed home  
Moments stuck all over you  
That's what I need and that's what we'll do  
I could walk a mile in your shoes  
I know how it feels to dance like you  
Cause people gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night, no  
People gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night  
Maybe we're still lost  
Maybe we'll never learn  
But as the dust settles down and I'm glad you're here  
I feel I'm finally headed home
