

# Lost in the Crowd (feat. Fashawn, Zion I)

## Bassnectar & Jantsen

Should I offer up my hand  
And save a wish for once  
For all of us  
And should I offer up my hand  
And lay the guilt on myself  
So it's easier, to not stay, to not stay Because I found you in your corner  
I pulled you out of the clouds  
You left in such a hurry  
Your face is lost in the crowd  
Should I open up my eye's or just ignore who you are  
And what you could have been  
And should I open up my eye's and make believe you will change  
So it's easier to not stay, to not stay Because I found you in your corner  
I pulled you out of the clouds  
You left in such a hurry  
Your face is lost in the crowd Because I found you in your corner  
I pulled you out of the clouds  
You left in such a hurry  
Your face got lost in the crowd  
Because I found you in your corner  
I pulled you out of the clouds  
You left in such a hurry  
Your face is lost in the crowd  
Your face is lost in the crowd  
Your face is lost in the crowd
