

# Delirious

David Guetta, Joachim Garraud & Tara McDonald

Seems to me like the days are getting longer  
For everyone there's no fun when there's no time to sleep  
Working on and on for a day in the sun  
Counting down the days till it stops Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious Take me away, make me a holiday  
Delirious  
Take me away, make me a holiday  
Delirious  
Under the sun I feel I'm getting stronger  
Time to rewind my mind, recharge my batteries  
'Cause it takes so long and too soon it's gone  
Holding back the days to my reality Take me away, make me a holiday  
Take me away, make me a holiday  
Delirious Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious  
Take me away, make me a holiday  
Delirious  
Take me away, make me a holiday  
Delirious Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious Can you hear us, watch the sun on my skin?  
And the world that I'm in makes me delirious  
Can you hear us with a smile on my face?  
On a far different place I'm delirious
