

How You Forget (Don.a.a.ron Remix)

[M1LDL1FE & Don.a.a.ron](#)

Whoa, whoa Your face breaks the dawn
A rebel [?], hopelessly [?]
A breaking fall
Stay safe inside 'till you are forever gone It's funny how, it's funny how you forget
The little things that find their way into your bones
It's funny, how it's funny how you forget
Florescent things that make the fragments of your soul
Whoa, whoa
I'll bleed you out
One drop at a time 'till this ocean sleeps alone
They tell me to remember is to be alive
But what if I should decide
To kill me instead of this memory? It's funny how, it's funny how you forget
The ones who hide their fingers dug into your walls
It's funny how, it's funny how you forget
The little things that find their way into your bones This is it, it's gunna be gone soon
I know
What do we do?
Enjoy it
It's funny how, it's funny how you forget
The memories you swore never to let go
It's funny how, it's funny how you regret
The very things you keep inside [?]
It's funny how, it's funny how you forget
It's funny how, it's funny how you forget
It's funny how, it's funny how you forget
It's funny how, it's funny how you forget
