

We Came To Bang (feat. Luciana)

3LAU

Can you hear me when I call?

Yeah everybody wants to know

This could be the moment we break through

This could be the start of something new

This could be the moment we break through

This could be the start of something new

Bang Bang

Wild animala

Dance like a stripper

You get the picture

You get the picture

I am the gun gun

And you on the run run

We came to bang bang

Yeah we came to bang

Yeah we came to bang

Bang Bang

Wild animala

Dance like a stripper

You get the picture

You get the picture

I am the gun gun

And you on the run run

We came to bang bang

Yeah we came to bang

Wild animala

Dance like a stripper

You get the picture

You get the picture

I am the gun gun

And you on the run run

We came to bang bang

Yeah we came to bang

Can you hear me when I call?

Yeah everybody wants to know

If you're looking for something

Looking for something

Looking for something

Better than this

If you're looking for something

Looking for something

You've already found it

This is it

Oh oh oh oh oh

Can you hear me shout it out?

Oh oh oh oh oh

Can you hear me shout it out?

Bang

Bang

Bang, Bang

Can you hear me shout it out?

Bang

Bang
