

Better with You (feat. Iselin) [Saint Punk Remix]

3LAU & Justin Caruso

Last night I was messed up,
But I hope you will forget
Please do me a favor, Erase the things I said
Pull me a little closer,
Take away the pain
Remind me
I got everything to lose
I'm better with you
I'm better with you I'm better with you
I'm better with you
I'm better with you
I'm better with you
Laying by your bedside,
You feel so far away
Guess my quota is full now,
Go ahead make a mistake
You'll say that you're
Sorry and I'll say it's ok
Cause I know
I got everything to lose
I'm better with you
I'm better with you
You'll say that you're
Sorry and I'll say it's ok
Cause I know
I got everything to lose I'm better with you
I'm better with you
I'm better with you
I'm better with you
I am by your side,
Nothing else will matter
When your eyes meet mine,
We say it all in silence
Under the same sky,
Good things fall together
Now I know I'm better with you I'm better with you
I'm better with you
I'm better with you
