

Never Gonna Like You

Bea Miller & Snakehips

I only met your father once
And he told me not to worry 'bout you showing up
And we did so, yeah, we did so much shit growing up, yeah, yeah
Now I don't know a thing about you, a thing about you
And now you don't recognize me when I look you in the face
How could you when you hide behind your shades, all back?
You're gettin' so deep but I know you're in a state
Tell me how you changed so fast
Why you gotta be like that?
Swear I'm never gonna be like that
Actin' faded when their eyes on you
They ain't never gonna like you
All my friends, they say you're dope
But they just stay in 'til the lights come on
Wake in the morning, it'll be just you
They ain't never gonna like you
Like I used to
Like I used to
Like I used to
Remember when you'd called me up
And come over in the daytime and we'd light it up?
You forget, but at the time, you didn't give a fuck
And now you give a fuck, too much
Don't recognize me when I look you in the face
How could you when you hide behind your shades, all back?
You're gettin' so deep but I know you're in a state
Tell me how you changed so fast
Why you gotta be like that?
Swear I'm never gonna be like that
Actin' faded when their eyes on you
They ain't never gonna like you
All my friends, they say you're dope
But they just stay in 'til the lights come on
Wake in the morning, it'll be just you
They ain't never gonna like you
Like I used to
Like I used to
Like I used to
Ooh
Like I used to
Like I used to
Like I used to
Ooh, yeah, we used to be friends
Now you're actin' different
Tell me that you need me like you used to
Swear I'm only tryna make sense
Don't know where the days went

Tell me that you need me like I'm missin' you (you, you) Why you gotta be like that?
Swear I'm never gonna be like that
Actin' faded when their eyes on you
They ain't never gonna like you
All my friends, they say you're dope (they say you're dope)
But they just stay in 'til the lights come on (but they stay in 'til the lights come on)
Wake in the morning, it'll be just you (just you)
They ain't never gonna like you Like I used to (no, they never gonna like you)
Like I used to
Like I used to (No, they never gonna like you)
Ooh, like I used to
Like I used to
Like I used to (never gonna like you) ooh
Ooh Like I used to
Like I used to
Like I used to
Ooh (oh-whoa)
Like I used to
Like I used to
Like I used to (never gonna like you)
Ooh
