

# Company

Tinashe

[Hook]

I don't need the lovin'  
So don't make this something, see  
I'm nothing like a girlfriend  
I'm not like someone I'm supposed to be  
And I just want some company, company  
I just need some company  
I just need some company  
I just need some company

[Verse 1]

'Panion, shout-out to my road dawg  
I'm straight up  
With this one boy I know of  
I call 'em  
When I start feeling alone  
I want it and sometimes see I don't

[Pre-Hook]

I don't need no problems wit nobody  
And I know how to get there, don't follow me  
I just need a moment, fuck and leave  
You can say you had it all  
No strings

[Hook]

I don't need the lovin'  
So don't make this something, see  
I'm nothing like a girlfriend  
I'm not like someone I'm supposed to be  
And I just want some company, company  
I just need some company  
I just need some company  
I just need some company

[Verse 2]

Companions  
But we keep it even lower  
I never, ever been the type to just show up  
And you can't ever be the type-a-guy to just show up

And treat this like a meet and greet  
And then we go up

[Pre-Hook]

I don't need no problems wit nobody  
And I know how to get there, don't follow me  
I just need a moment, fuck and leave  
You can say you had it all  
No strings

[Bridge]

Had it all  
You can say you had it  
You can say you had it all  
You can say you had it  
You can say you had it all  
You can say you had it

Aww bae

You're just my little side thing  
Just a little sweet fling, baby  
You don't have to buy things  
I just want the high, supply me

[Hook]

I don't need the lovin'  
So don't make this something, see  
I'm nothing like a girlfriend  
I'm not like someone I'm supposed to be  
And I just want some company, company  
I just need some company  
I just need some company  
I just need some company

[Outro]

Da, da, da, I just need  
I just need some company, company  
I just need some company
