

# Be By Myself (feat. Cee-Lo)

[Asher Roth](#)

I gotta be by myself, gotta be by myself this time  
Whoa In the backseat screaming out loud  
In the backseat screaming out  
Ash is young, attractive, handsome bachelor, awesome rapper  
Got a knack for vernacular when I perform spectacular  
I'll have any girl that I want, I'm a take the girl in the front  
Boobs bounce when I tell the crowd jump, honey, come backstage I just want to have fun  
But I'm too young to be locked down, not now  
Need a new car, drive around with the top down  
New broad with her bra and her top down  
Chillin' in the backseat screaming out loud  
She wants to be my lady but I don't see her  
She wants to be my lady but I'm a free bird  
I gotta be by myself, gotta be by myself this time  
I gotta fly by myself, go get high by myself this time The cycle is Shawn Michaels (heartbreak)  
And yeah I like you but not enough to wife you  
Say, I'm nice, true and you think I'm the right dude  
But there's another girl just like you (like who?)  
I'm on the road, another night, another show  
New event in a new time zone  
And the live show is so mind blowing  
And it's my show so you know that I'm blown (you know?)  
No text gonna give me head, Long distance just ain't my thing  
Yeah I'm single, don't need no ring,  
I'm a free man now, I don't need no strings, sing  
If you're cool with nights at the pool  
Jacuzzis and groupies, groupies and booze  
And no rules, I'm only 22  
I need to watch football and hang with the crew  
But if you don't get mad when I get fat  
Cause all I do is eat, drink, smoke weed and rap  
And play Madden then dag  
You're pretty rad and I take it all back, c'mon Just keep clapping your hands, Feels good, feels  
nice and warm in here right now  
I'm feeling free, if you feel free, clap your hands, ah, ah, ah, c'mon
