

# Te Quiero

Claydee & Dave Audé

I can feel the heat tonight  
Make me wanna say "Te quiero"  
Girl I'm playin' with fire  
When you put your hands in mine  
Baby I just can't say no  
Girl we're playin' with fire I'm a sinner in the dark  
Catch your eye with a spark  
Got me goin', goin' hard  
Take you higher  
You can eat me a la carte  
I'll take your rocket to the stars  
Bet you never felt like this before  
Can't fight the fire  
Paradise, let me take you higher up  
Paradise, hold me close I can feel the heat tonight  
Make me wanna say "Te quiero"  
Girl I'm playin' with fire  
When you put your hands in mine  
Baby I just can't say no  
Girl we're playin' with fire Can you handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like I could be your queen of hearts  
Push my button, make it start  
Listen, boy, I'm in charge  
Fire, fire  
Paradise, let me take you higher up  
Paradise, hold me close I can feel the heat tonight  
Make me wanna say "Te quiero"  
Girl I'm playin' with fire  
When you put your hands in mine  
Baby I just can't say no  
Girl we're playin' with fire Can you handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat

And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like Tu amor es como el fuego  
Que calma mis heridas  
Vivir sin ti no puedo  
Te voy a dar mi vida I can feel the heat tonight  
Make me wanna say "Te quiero"  
Girl I'm playin' with fire  
When you put your hands in mine  
Baby I just can't say no  
Girl we're playin' with fire Can you handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like  
Handle the heat  
When I back up my seat  
And I'm off to the beat like
