

# Wisconsin Ave

## Kailee Morgue

[Verse 1]

Watching you dance in your platform shoes  
You look so pretty in these reds and blues  
Baby, please I know we're diving deep  
And you can barely breathe  
I'm scared completely that you'll up and leave me  
Is it worth this feeling?

[Pre-Chorus]

Who are we kidding?  
That night in Milwaukee  
Was already starting

[Chorus]

Your hair in my mouth  
Pull me down to the couch  
Oh, I want you right now  
And everyone tells me  
My heart beats for nothing  
But something is changing

[Verse 2]

I still got that ring that you let me wear  
In that haunted swimming pool  
I know you felt me there  
The wind is high, don't try to change my mind  
I feel so sure this time  
Standing in just your t-shirt  
I know that this will hurt  
If you let go of me first

[Pre-Chorus]

Who was I kidding?  
That night in Milwaukee  
You already had me

[Chorus]

Your hair in my mouth  
Pull me down to the couch  
Oh, I want you right now

(I want you right now)  
And everyone tells me  
My heart beats for nothing  
But something is changing

[Outro]  
Standing in just your t-shirt  
Something has changed  
If you let go of me first  
Something has changed
