

Right Time (feat. Reggie Becton)

Ye Ali

[Intro: Ye Ali]

Yeah

Ooh

Oh woah

Yeah [Chorus: Ye Ali]

See I just wanna leave it in the right place
I just wanna leave us in the right place, yeah
I don't see nobody else beside you
I can't see nobody else beside me, yeah
Just wanna leave in the right
I just wanna leave it in the right place, yeah
I control it and you get me excited, yeah
Oh I don't believe in no goodbyes, yeah

[Verse 1: Ye Ali]

I've been in the sun, catchin' all these vibes, yeah
I don't wanna bang in no more line, yeah
You said you need space, I need some time and-
Just know if you leave I'm comin' back to you
I'm in Hawaii

Umbrella in my drink I'm 'bout to smoke some right
And she on fire, she give butterflies like Mariah, oh
Oh my, face all in the pillow when you bite it, yeah
Yeah, yeah

Girl I need you back in my life so

[Chorus: Ye Ali]

See I just wanna keep it in the right place
I just wanna leave us in the right place, yeah
I don't see nobody else beside you
I can't see nobody else beside me, yeah
Just wanna leave in the right
I just wanna leave it in the right place, yeah
I control it and you get me excited, yeah
Oh I don't believe in no goodbyes, yeah

[Verse 2: JAYLIEN]

You wanna break up but I'm reluctant
You bagged me off the 'Gram, you was cuffin'
Wanted to wife you all of a sudden
I ain't even do my research or nothin' (Nothin')
I'm naive, I'm green, I'm like a fiend
I know you bad for me but let me dream
'Cause I wanna put you on a big screen
So you ain't gotta put your ass on your IG

You in my bloodstream like an IV
When you find yourself then come and find me
Better do your research, you tryna find things
You belong in the [?] so good, you define queen
I'll tell it like Usher, 'cause you remind me
They say it's always 'bout timin'
Work that ass like turbo hitachi
Set the right place, do the right thing
The right code hit the right gate
The right stroke make the right face
The left stroke make a bitch faint
I just wanna leave it in the right place[Chorus: Ye Ali]
I just wanna keep it in the right place
I just wanna leave us in the right place, yeah
I don't see nobody else beside you
I can't see nobody else beside me, yeah
Just wanna leave in the right
I just wanna leave it in the right place, yeah
I control it and you get me excited, yeah
Oh I don't believe in no goodbyes, yeah
