

# Situationship

## Snoh Aalegra

So many times that I tried to get over you, no lie  
The moment I met you, I knew I would let you down  
And so many times you and I made love in my mind  
Don't wanna regret you, I can't seem to forget you now

I don't mean to  
Go on and confuse you  
I know I'm confusing now  
And I don't mean to  
Go on and seduce you  
I can't help but seduce you now

(Guess we got a situationship)

I guess we got a situationship

(Guess we got a situationship)

I didn't mean to but we got a little situation

(Guess we got a situationship) Yeah

Yes we got a situation, shit mmh

So tell me how to resist what we have when it feels right  
The moments that I'm with you, I forget about the issues, oh (I keep forgetting now)

Too many times you and I made love in my mind

The truth is that I miss you, no way I can forget you now, no

I don't mean to

(I don't mean to baby)

Go on and confuse you

I know I'm confusing now

And I don't mean to

Go on and seduce you

I can't help but seduce you now

I can't help it but I think we got a...

(Guess we got a situationship)

Oh baby I just think we got a...

(Guess we got a situationship)

I think we got a little situation

(Guess we got a situationship) No...

(Yes we got a situation, shit) Situation, shit

Loving you is everything

(Loving you is everything)

So obvious we can't pretend

Said this time and time again

(Said this time and time again)

Sleep on it and try again, oh no

(Guess we got a situationship)

Guess we got, ooh-ooh

(Guess we got a situationship)

Guess we got a...

(Guess we got a situationship) Situationship

(Yes we got a situation, shit) Shit shit
