

# I Wish I Could Break Your Heart

Cassadee Pope

I wish I could break your heart.  
I wish I could bring you down.  
Just for a second teach you a lesson about bein' alone in the dark  
I wish I could make you cry, so hard you can barely breathe.  
Maybe you just might know what it feels like to be me Well, the truth is that I never ever wanna  
hurt you baby.  
But it'd be nice to know that I could be strong enough to pull you under, t  
hrow you back a little thunder.  
Even though I never would.  
Oh, I wish I could break,  
I wish I could break your heart  
I wish I could crash your dreams.  
I wish I could turn back time.  
Boy, I'd lead you on, light the fuse, drop the bomb,  
just so I'd be the first to leave. Well, the truth is that I never ever wanna hurt you baby.  
But it'd be nice to know that I could be strong enough to pull you under, throw you back a little  
thunder.  
Even though I never would.  
Oh, I wish I could break,  
I wish I could break your heart I wish I could break your heart  
I wish I could make you cry  
I wish I could turn back time  
Well, the truth is that I never ever wanna hurt you baby.  
But it'd be nice to know that I could be strong enough to pull you under,  
throw you back a little thunder.  
Even though I never would.  
Oh, I wish I could break,  
I wish I could break your heart.  
I wish I could break your heart
