

Samaritan

ionnalee

[Intro]

Hoo

[Verse 1]

Mm, oh, the future is gonna be bright

A clear path and all the stars are out

Looking up at the dark blue sky

Walking steady not blinded by the light

[Chorus]

I don't believe in a god, let's leave religion out of all this

I don't remember promising my life and soul to bring you all bliss

If I am what you say, I expect to be hanging from a wooden cross

When all this is done, it's done

I don't believe in a god, let's leave religion out of all this

I don't remember promising my life and soul to bring you all bliss

If I am what you say, I expect to be hanging from a wooden cross

When all this is done, it's done

[Interlude]

No, no

No, no, no, no, no, no

No, no

No, no, no, no, no, no

Hoo

[Verse 2]

Oh, oh the past will never be the same

Once I am done, good memories will be gone

They guard their secrets with their lives

I spit on your fo-forsaken tribe

[Chorus]

I don't believe in a god, let's leave religion out of all this

I don't remember promising my life and soul to bring you all bliss

If I am what you say, I expect to be hanging from a wooden cross

When all this is done, it's done

I don't believe in a god, let's leave religion out of all this

I don't remember promising my life and soul to bring you all bliss

If I am what you say, I expect to be hanging from a wooden cross

When all this is done, it's done

[Verse 3]

Oh, thy beauty makes me go blind

When you are near, my senses don't function

I give you this empty life

Can I be your soldier with a knife?

[Chorus]

I don't believe in a god, let's leave religion out of all this
I don't remember promising my life and soul to bring you all bliss
If I am what you say, I expect to be hanging from a wooden cross
When all this is done, it's done

I don't believe in a god, let's leave religion out of all this
I don't remember promising my life and soul to bring you all bliss
If I am what you say, I expect to be hanging from a wooden cross
When all this is done, it's done

[Verse 4]

Oh, thy beauty makes me go blind
When you are near, my senses don't function
I give you this empty life
Can I be your soldier with a knife?

[Outro]

No, no
No, no, no, no, no, no
No, no
No, no, no, no, no, no
