

One Bad Night

Hayley Kiyoko

Talk with your fingertips
Don't stop the colors drive
Suck on your amber lips
Just give me one bad night
Heart beat is razor thin
Hot heat you make me hot
Get underneath my skin
Just give me one bad night
You make me feel like
I wanna be bad, I wanna be bad
Let's have a good time
And never look back
Let's never look back
Talk with your fingertips
Don't stop the colors drive
Suck on your amber lips
Just give me one bad night
(one bad night) Hopping is freezer-thin
(one bad night) Hot heat you make me hot
(one bad night) Get underneath my skin
(One bad night) Just give me one bad night
We play with fire, these yellow minds get blurry
When we're on the wire
I'm burning with you, on this black tightrope
When it feels this good, you don't let go
You make me feel like
I wanna be bad, I wanna be bad
Talk with your fingertips
Don't stop the colors drive
Suck on your amber lips
Just give me one bad night
(one bad night) Hopping is freezer-thin
(one bad night) Hot heat you make me hot
(one bad night) Get underneath my skin
(one bad night) Just give me one bad night
All night, let this feel right
All night, let this feel right
All night
