

# YOU'RE THE ONE (feat. Syd)

## KAYTRANADA

I want you to want me  
But you just gonna love me for the day  
And I can't just walk away  
Even though I know you're trouble babe So imma take my time  
Go with the flow, can't get too involved  
You got a face that I  
Just can't say no to  
Just can't say no to you  
You know I want you baby  
You know I do  
I'll give you my heart and the rest is up to you  
You ain't no good for me, I know it's true  
But you don't have to be  
Cause I do it for the thrill, for the rush  
I do it for the pain, for your touch  
When I OD, when it's too much  
If I survive, baby you're the one  
You're the one Babe I feel like I'm walking  
The tightrope of love in your circus babe  
If I were to fall off it'd be my last day  
Even though you're right under me  
So imma take my time  
Go with the flow, can't get too involved  
You got a face that I just can't say no to  
Just can't say no to you You know I want you baby  
You know I do  
I'll give you my heart and the rest is up to you  
You ain't no good for me, I know its true  
But you don't have to be, cause I do it  
For the thrill, for the rush  
I do it for the pain, for your touch  
When I OD, when it's too much  
You're the one
