ZAYN

Oh, we were not on the same place  
Show me in the same light  
Feels right when we take flight  
Clothes off 'cause she's so soft  
This ain't a fair fight, yeah  
Wanna shed light on the subject  
I'll get her wetter than ever  
Four letters are never the question  
She likes when I'm messy  
And I like when she's undressing  
You're looking in the wrong place for my love  
Don't think because you're with me this is real  
You're looking in the wrong place for my love (my love)  
Don't stop what you're doing 'cause I like how you're doing it  
Here with you 'cause you got the right vibe  
Seems like you probably got a dope mind  
But it's gotta be the right time  
We're only good for the night time  
I see through your demeanor  
Baby, I'm a pleaser  
I go out my way to treat you  
But I can't be your teacher  
'Cause I'm a problem with problems  
I know who I am and I'm not no good  
You can have me tonight or never, I thought you understood  
Baby, some people are meant to be loved and others just make it  
So take what I'm willing to give and love it or hate it  
You're looking in the wrong place for my love  
Don't think because you're with me this is real (oh-oh)  
You're looking in the wrong place for my love  
Don't stop what you're doing 'cause I like how you're doing it, no  
Don't stop what you're doing  
Don't stop what you're doing (don't stop, uh)  
I don't, I don't really know (uh-oh)  
I don't, I don't really care (don't stop, uh)  
Maybe keep it on the low (don't stop, uh)  
With stories that I don't wanna share (I don't, uh, don't stop)  
You're looking in the wrong place for my love (for my love)  
Don't think because you're with me this is real  
You're looking in the wrong place for my love (my love)  
Don't stop what you're doing 'cause I like how you're doing it, no  
You're looking in the wrong place for my love  
Don't think because you're with me this is real

You're looking in the wrong place for my love (for my love)  
Don't stop what you're doing 'cause I like how you're doing it
