

# Dance With Me

Adé Hakim

[Verse]

Livin' in harmony

I will never waste my time

The game tried to break my mind

The hate tried take my shine

They could never dim my light

Grateful that she gave me time

Paving through the way I dodge any negative space

I'm on to better things babe

Where everything is great

Decatur where I lay my rhymes

Ableton for days I grind

I'm with Thébe and Sage

I never been afraid

To live my dreams and thank my momma

I would never break my promise

Our president is fake

Put bread into your faith

History we make in honor of mystery hate

My heart is a feather in weight

Things never stay the same

Change was evident for all of us

Kiss the hand of my good karma

We met and had a date

On the same day

This could mean we close to god

We listen to the most of y'all

Y'all ain't had shit to say

Yeah that shit is a shame.....
