

# Different Drum

## Blanca

We are the colors outside of the lines  
and we paint a picture, so one of a kind  
Attention, we call attention  
Our mission, we direct attention So let's break the mold  
Go off the wall  
Be in the world, but not of it  
Against the grain, less of the same  
We're walkin' now where love is We're gonna march to the beat of a different drum  
We do that left right left to our own rhythm  
And we'll keep on movin' cuz we're not afraid to stand out We're gonna march to the beat of a  
different drum  
We do that left right left to our own rhythm  
And we'll keep on movin' cuz we're not afraid to stand out  
We're not a copy of the status quo  
We're cut from the cloth of the original  
Attention, gotta get your attention  
All you need to try to be is who you're made to be So let's break the mold  
Go off the wall  
Be in the world, but not of it  
Against the grain, less of the same  
We're walkin' now where love is We're gonna march to the beat of a different drum  
We do that left right left to our own rhythm  
And we'll keep on movin' cuz we're not afraid to stand out We're gonna march to the beat of a  
different drum  
We do that left right left to our own rhythm  
And we'll keep on movin' cuz we're not afraid to stand out  
So let's break the mold  
Go off the wall  
Be in the world, but not of it  
Against the grain, less of the same  
We're walkin' now where love is Step one two is what we do  
You know they hear us coming  
Pick up your feet, make history We're gonna march to the beat of a different drum  
We do that left right left to our own rhythm  
And we'll keep on movin' cuz we're not afraid to stand out We're gonna march to the beat of a  
different drum  
We do that left right left to our own rhythm  
And we'll keep on movin' cuz we're not afraid to stand out
