

Nerd Girl (Feat. Janelle Monae)

Chester French & Clinton Sparks

The girls I used to chase round
Were nothing but looks
Never cared bout the news I follow
Or my favorite books
Then I met you
And you showed me
To a different path
Now I'm reading you Dostoevsky
And you're doing my math You're my nerd girl
An extraordinary mind
Brain is of a kind so unknown
You're my nerd girl
Unpreoccupied with style
The metal in your smile makes you shine Hello how nice to meet you
I'm Janelle Monae
I wear tiny suits and bow ties
Some might call me strange
Most guys don't enlighten me
But I'm intrigued by you
I'm your nerd girl writing sci-fi
But now I'm riding you You're my nerd girl
An extraordinary mind
Brain is of a kind so unknown You're my nerd girl
Unpreoccupied with style
The metal in your smile makes you shine
I'm your nerd girl
Reading comics in the dark
My favorite station's NPR, yours too
You're my nerd boy
Love your awkward little walk
The way you stutter-talk like you do
