

Never Take Away My Freedom

David Guetta, Joachim Garraud & Chris Willis

I may be wrong, I may be right
I may never see the light
But you can never take away my freedom
Can take everything I own
You can have and sing my song
You can never take away my freedom
I may be wrong, I may be right
I may never see the light
But you can never take away my freedom
Can take everything I own
You can have and sing my song
You can never take away my freedom
Freedom, freedom, freedom, freedom...I may be wrong
and may be right
I may never see the light
But you can never take away my freedom
Can take everything I own
You can have and sing my song
You can never take away my freedom
I may be wrong and may be right
I may never see the light
But you can never take away my freedom
Can take everything I own
You can have and sing my song
You can never take away my freedom
I may be wrong and may be right
I may never see the light
But you can never take away my freedom
Can take everything I own
You can have and sing my song
You can never take away my freedom
Freedom, freedom, freedom, freedom...
