

# Death Don't Want You

## Dark Lotus

Blaze:

It ain't no place to be, trust me  
And why is that you ask  
Ain't no lights at the end  
There's only darkness on my path  
Tortured souls fill the realm I call home  
Without the Reaper's guidance  
To lead them out the dead zone  
It's plain and clear  
Don't spend eternity here  
With others like them  
Who took their own life out of fear  
Why couldn't they just see that everybody's got a time?  
Let the Reaper do his job, man  
He's doing just fine.

Violent J:

Death don't want me, life is all that I got  
Keep me living even if I'm just a head in a box.  
Take me outdoors, feed me  
Put tits in my face  
There's enough reason for me to live in any case  
Send me to prison, I'll start pimpin' faggots in there  
Cripple my ass, I'm floating spinners on my power chair  
I'm Violent J, I could never die anyway  
Even when I'm gone all you gotta do is hit play.  
I'm Juggalotus.

Chorus:

Death don't want you but the Lotus do  
So bring the wicked shit, we gonna bring it too  
We like 'Hey'  
Lotus Song  
We comin' your way  
Lotus Song  
Death don't want you when the rain is gone  
But with your Lotus high, you know we all belong  
We like 'Hey'  
Lotus Song  
We comin' your way  
Lotus Song

Lotus Song

ABK:  
I wouldn't change a thing, I'm cool with that  
Death doesn't want me, so I'm here to relax  
There's so many more in this world that feels the same way

Known as the Juggalos, representing family  
Not afraid to die, cause death is afraid of us  
We're meaner then the devil  
But we're someone you can trust  
We're used to being shut down  
And pushed out the doorway  
Death doesn't want us so we're fucking here to stay  
Monoxide:  
You ain't too fresh for death to want you  
with abilities and talents no one can ever come close to  
suppose you don't lose, stay on track  
you don't know if you don't try  
always remember that  
and remember this  
in my eyes, we're all the same  
you breathe, i breathe, we both share the name  
of the juggalo, respect that and cherish your pride  
cuz we're family representin? alive  
Chorus (repeat)  
Shaggy:  
Hold up now and think about this shit  
why the fuck death wanna pay you a visit  
i've been waitin 30 years and nothin  
so what makes you think you so special mother fucka  
i've been knockin on his forehead and peep this  
all that bitch did was bring me a gang of kids  
maybe more people for later times  
but for now i know he don't wanna fuck with me or mines  
Madrox:  
if i contemplated dyin then really i would be lyin  
and tryin to get to heaven is really another question  
i'm guessin another lesson and livin ain't really needed  
but since i've been gettin weeded, defeated has been deleted  
i seen it but don't believe it, my eyes just wanna hide  
and at the same time they collide with the other side  
bleed crime and courage until the day that i die  
now put your lotus in the mutha fuckin sky (LOTUSSSSSSSSSS)  
Chorus (repeat)  
we got people  
to see we got places to go  
death dun want no juggalo  
we got people to see we got places to go  
death dun want no juggalo (repeat to end)
