

me & ur ghost

[blackbear](#)

I'm not alone
It's just me and your ghost
And this crippling depression
I thought I learned my lesson
But I threw out my phone
And I burned all your clothes
And now I'd be away
But I still miss ya
Right after coffee
Be in park wanted to play football
But I want to do music and football
But I still miss the play I came from
Broken homes
I miss him so much
But I got to move on
