

# Stucc in the Grind

## Bino Rideaux & Nipsey Hussle

Stucc in the Grind

Nipsey Hussle & Bino Rideaux I can feel the vibe Hussle on the rise

This lil light of mine I'm gon' let it shine

All she want is time, all she want is time

Look me in my eyes call me on my lies

Lock the city down til' the summertime

Time to slice these niggas up some humble pie

Caravan of foreigners let my youngin' drive

Elevate my game for the hundreth time

You could hold me down thru these troubled times

Or be another victim to my stubborn pride

Hold down through these troubled

times, be another victim to my stubborn pride

Stuck in the grind, Stuck in the grind, I'm stuck in the grind

Look me in my eyes call me on my lies

I'm stuck in this grind, I'm stuck in this grind

Middle of the night kitchen lights is on

Roll me up a Bacc then I light the stove

Told her stay calm when the crises on

Say I die alone, I say my life a poem

Hyde Park Hussle speaking hyperbole

Translation, get the money never wife a hoe

Took this four already now its time to go

Shoulder full already where these stripes should go

Crash got opinions how my life should go I'm screaming

fuck em' they could suck a dick and die tonight you know

Bullets, rain on em' cut the life support

My section ride for sport every night of course

Niggas dying everyday that's the price of war

Gang members spending thousands at the nicest stores

Levitate on five star luxury, every time I ride shit come for me

Stuck in the grind, Stuck in the grind, I'm stuck in the grind

Look me in my eyes call me on my lies

I'm stuck in this grind, I'm stuck in this grind

Make a movie take the top off

Bout to cross over like Hot Sauce On this gutter shit I never hopped off, most calculated move  
by far

Always with a model and a fly car

30 thousand for the python, rocking knee high, drinking white wine

Listening to In My Lifetime, in the night time

Looking at the city skyline, getting sky high

Took the lil' bitch to Popeye, she was top 5

Excitement that she get from pop life could never top mine  
Once you get the hustle locked down you can stockpile  
Level another notch now, like its stock now  
Everytime I take the top down she arch her eyebrows  
Turning up the music high now, she feel alive now  
Love me like we from a small town, lets make a mall round  
You splurge, I splurge  
We ball later and we ball now Stuck in the grind, Stuck in the grind, I'm stuck in the grind  
Look me in my eyes call me on my lies  
I'm stuck in this grind, I'm stuck in this grind  
Ain't no going back once them lights on you  
Left the dorm in the middle of the night homie  
Affidavits going viral thats yo' life homie  
Ain't no point even tryna lie homie  
This go out to all the SNY homies This is death before dishonor, you should die homie  
Fuck you niggas you disrespected the tribe homie  
Rule deprived its written all in your eyes homie  
Stuck in the grind, Stuck in the grind, Im stuck in the grind  
Look me in my eyes call me on my lies  
I'm stuck in this grind, I'm stuck in this grind  
Ain't no going back once them lights on you  
Left the dorm in the middle of the night homie  
Affidavits going viral thats yo' life homie  
Ain't no point even tryna lie homie  
This go out to all the SNY homies This is death before dishonor, you should die homie  
Fuck you niggas you disrespected the tribe homie  
Rule deprived its written all in your eyes homie  
Stuck in the grind, Stuck in the grind, Im stuck in the grind  
Look me in my eyes call me on my lies  
I'm stuck in this grind, I'm stuck in this grind
