

ONCE MORE (feat. Georgia Ku)

Party Favor

Came through just to see you
I heard you'd be here tonight
Missed the way it feels
To wake up by your side

Been through this stage of loving you
Then hating you
Then missing you
Then tearing up the polaroids
Found all the ways of leaving you
Then calling you
Then wishing I was bored of hearing your voice

But I always come back
Thinking that
I could love you once more
Love you once more
Why do I try
Try to love you once more
Love you once more
Running these circles in my mind
You'd think by now I would be tired
Thinking that
I could love you once more
But I always come back

I always come back

I always come back

Same old story is like
You can't break me enough times
Try to move on but I
Like it when you're mine

Been through this stage of loving you
Then hating you
Then missing you
Then tearing up the polaroids
Found all the ways of leaving you
Then calling you
Then wishing I was bored of hearing your voice

But I always come back
Thinking that
I could love you once more
Love you once more
Why do I try
Try to love you once more
Love you once more
Running these circles in my mind
You'd think by now I would be tired
Thinking that
I could love you once more
But I always come back

I always come back

I always come back

But I always come back
Thinking that
I could love you once more
Love you once more
Why do I try
Try to love you once more
Love you once more
Running these circles in my mind
You'd think by now I would be tired
Thinking that
I could love you once more
But I always come back

I always come back

Love you once more
Love you once more
