

Colony of Birchmen

Mastodon

This forest is growing faster than I can tell
Cell structure eats away at a massive swell
Seems however I'm a victim of circumstance

Hunt for ogres and dwarves

Lion slicer

Run with death

Run with death

White faces coming closer with every step
Earth envelopes taking breath without happenstance
Carve my teeth out ripping through the sheep's head curse

Hunter gatherer

Ridden from the cave

Run with death

Run with death

Gone away

My heart's gone away

Taking everything

My heart's gone away

Take it now

Run with death

Run with death

Gone away

My heart's gone away

Taking everything

My heart's gone away

Take it now
