Figure It Out

[Jai Waetford](#)

[Verse 1]
Said you know me, but I don't know you
Try to talk shit, tryna rendezvous
Said you saw me from across the room
Throwin' all this gingerbread
Catch me, catch me if you can
Cutting out the middle man
Tell your girl I saw the man
She was just too much to handle
Asking for my hand, ooh
You know how I feel
About giving second chances
Said 'fuck you' and your bros
Tell 'em come and throw some hands

[Pre-Chorus]
Wake up, wake up
They think that I'm stupid, no
I know, I know
But you're feeling good right now
Take a picture
And tell them that we're homies now
We got hella issues you don't wanna talk about

[Chorus]
Figure it out, figure it out (I'm open)
Figure it out, figure it out (I'm playing)
Figure it out, figure it out (Yeah)
'Cause you got lots of issues you don't wanna talk about
Figure it out, figure it out (I'm open)
Figure it out, figure it out (I'm playing)
Figure it out, figure it out (Yeah)
'Cause you got lots of issues you don't wanna talk about

[Verse 2]
You know me but, I don't know you
We try to talk that shit, try to rendezvous
Said you saw my face from across the room
You like my shirt and my number too (huh)

[Pre-Chorus]
Wake up, wake up
You think that I'm stupid, no
I know, I know
But you're feeling good right now
Take a picture
And tell them that you fuck me now
You got lots of issues you don't wanna talk about

[Chorus]
Figure it out, figure it out (I'm open)
Figure it out, figure it out (I'm playing)
Figure it out, figure it out (Yeah)
'Cause you got lots of issues you don't wanna talk about
Figure it out, figure it out (I'm open)
Figure it out, figure it out (I'm playing)
Figure it out, figure it out (Yeah)
'Cause you got lots of issues you don't wanna talk about

[Outro]
Yeah, yeah
Figure it out
(You always talk about)
Oh
'Cause you got lots of issues you don't wanna talk about
